Summary

Eager and dynamic software developer with a proven track record at Codezee Solution, where I enhanced backend functionality using Node.js and contributed to modern software projects. Skilled in Java, Spring Boot, and effective debugging, I excel in fast-paced environments and showcase strong problem-solving skills.

SKILLS

- **Languages:** JAVA, C++, PHP, HTML, CSS, JavaScript, Python
- **Databases and Tools:** MySQL, MongoDB, SQL, NoSQL, Kafka, Redis, Docker, IntelliJ IDEA, VS Code, Postman
- **Computer Fundamentals:** Object-Oriented Programming, Data Structures and Algorithms
- **Libraries and Frameworks:** JDBC, Spring, Spring Boot, Hibernate, JPA, Maven, Node.js, Express.js
- **Others:** 200+ DSA Problem Solved on LeetCode, Communication, Teamwork

WORK EXPERIENCE

Add Zero Group

July-2024 – Present

Student Trainee | Assistant Mentor

- Learned and assisted in mentoring peers in Java, DSA, OOP, and backend development through hands-on sessions.
- Gained experience in API design, database management, and Spring Boot development while helping others understand key concepts.

Codezee Solution

Jan-2024 – March-2024

Intern Software Developer

- Contributed to a develop project using Node.js, enhancing backend functionality.
- Assisted in debugging and testing software solutions.

PROJECTS

Inventory Management System

- Developed an Inventory Management System using Spring Boot to enhance inventory tracking, streamline orders, and prevent stock issues.
- Applied key features like product management, automated email alerts for stock levels, and SMS/WhatsApp notifications for users.

Sales Campaign

- Designed a sales campaign Management System using Spring Boot, enabling real-time price adjustments and sales oversight for improved campaign success.
- Developed an adaptable system with seamless campaign integration, precise control, and optimized database management, boosting sales performance.

DigiRestro

- Developed a Restaurant Management System using Node.js to streamline order management, reservations, and billing.
- Enforced features like menu management, real-time order tracking, systematized billing, and customer notifications via email/SMS.

Institute Event Management System

- Developed an Institute Event Management System using PHP to efficiently manage event planning, scheduling, and participant registrations.
- Implemented features like event creation, attendee management, automated notifications, and real-time updates.

EDUCATION

Uka Tarsadia University

Bachelor of Computer Application

July-2021 – May-2024

GSHEB

Higher Secondary Certificate

June-2019 – May-2021
